

WCG 2006 – World Cyber Game Singapore Championship

Alerex to Power Non-Stop High Intensity Gameplay at World Cyber Games 2006

Singapore, 10 to 13 August 2006 - Gamers competing at World Cyber Games (WCG) Singapore Championship 2006 are in for non-stop thrilling gameplay action with Blade, a revolutionary product developed by Alerex, the leading brand of uninterruptible power supplies (UPS). Alerex is proud to attach Blade to every PC and game console at WCG to protect every gaming moment with a steady supply of power.

Blade is the first UPS in the world designed to be an ultimate defensive weapon both in terms of design and function. Using cutting edge technologies, Blade assures gamers 100% connectivity to power 24/7 and enhanced performance of game consoles by up to 90%. Resembling the blades of a sword in design, Blade gives gamers the extra mental supremacy to wield off power problems and attain their highest potential.
